

Issue Creating a Maintenance Scenario (MSN 15022)

Introduction / Current Issue

An aircraft maintenance input file is required by Aeprice to create a new Maintenance Scenario.

There is an issue observed when creating a maintenance scenario for aircraft MSN 15022.

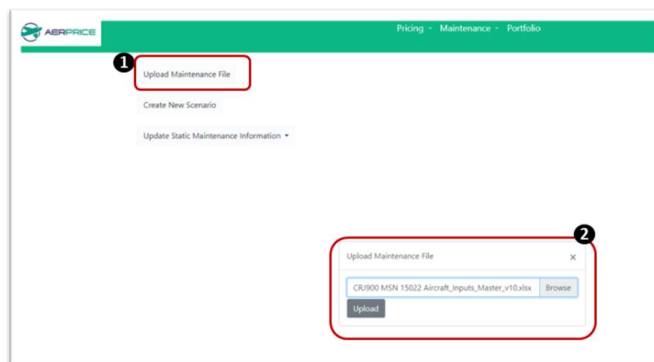

When looking to create a new maintenance scenario for MSN 15022, using the latest version of Maintenance Input file (v10) [ref. CRJ900 MSN 15022 Aircraft_Inputs_Master_v10.xlsx] , Aerprice fails to create the associated maintenance scenario

Reference the issue details in following section.

Issue Details

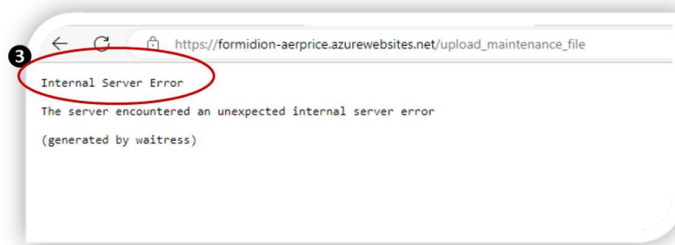

The relevant maintenance input file for the MSN [CRJ900 MSN 15022 Aircraft_Inputs_Master_v10.xlsx] is selected from the browse function and a request is made to create a maintenance scenario using the file, by selecting the grey “upload ” button (ref fig 1)

Fig. 1 Selecting and uploading to Aerprice relevant input file to create maintenance scenario

When the grey “upload” button is selected, an error message is returned to user (see fig. 2), and no maintenance scenario is created in Aerprice for MSN 15022

Fig. 2 Error from Aerprice when creating a maintenance scenario with an input file for MSN 15022

Required Task

To review the highlighted maintenance input file and troubleshoot why the maintenance scenario for MSN 15022 is not being successfully created by Aerprice for the relevant input file " CRJ900 MSN 15022 Aircraft_Inputs_Master_v10.xlsx "

Time limit available for this task is 1 hour.
